

RE: HR 4026
FCC:

I definitely oppose HR 4026. Satellite radio provides me a huge variety of listening options that my local radio stations do not offer.

Furthermore, I have chosen to pay for the variety of music this service offers and am offended that the NAB is attempting to remove this option I have chosen.

NAB:

1. STOP ALL THE COMMERCIALS - I want pure music
2. Improve the services offered - add more stations with more, dedicated, listening choices.

I have made the choice to take a different path for my listening pleasure and I should have the opportunity to hear music, traffic updates and weather just like all radio/tv listeners.

Please assist to STOP HR 4026!
